

OasisHacks 2023

Sponsor Packet

In-Person, April 16, 2023

Circuit Launch, Oakland, CA

An event by [Cal Commit](#)

What is Cal Commit?

Cal Commit strives to transform the future of computer science. Our goal is to empower students with the essential skills for effective collaboration and software development through participation in open-source projects, training in version control software, and engaging competitions. By providing hands-on experience and knowledge, we aim to not only prepare these students for success in their future careers but also provide unique networking opportunities and a platform for skill-building.

Moreover, we believe in giving back to the community and providing underprivileged and underrepresented students with a chance to gain valuable hands-on experience and make new connections. Be a part of this impactful initiative by sponsoring our competition today, and help shape the next generation of computer science leaders.

What's this competition about?

Oasis Hacks, hosted by Cal Commit, is an exciting hackathon event that brings together creative minds and tech enthusiasts to collaborate and build innovative solutions. This year, the hackathon will take place on August 6th from 9am to 9pm PST at Circuit Launch in Oakland, California.

Oasis Hacks aims to provide a stimulating environment for participants to showcase their skills, explore new technologies, and tackle real-world challenges. Whether you're an experienced developer, designer, or simply have a passion for problem-solving, this event offers a unique opportunity to network, learn, and create.

During the 12-hour hackathon, participants will form teams and work diligently to develop projects that address a specific theme. Mentors and industry experts will be available throughout the event to guide and support teams in their endeavors.

At the end of the hackathon, teams will present their projects. Outstanding projects will have the chance to win prizes, gain recognition, and potentially attract the attention of investors and sponsors.

Oasis Hacks is not only about competition but also fostering a vibrant community of innovators. Participants will have ample opportunities to network with

like-minded individuals, forge valuable connections, and gain insights from successful entrepreneurs and thought leaders. Don't miss out on this opportunity to sponsor an event filled with innovation and fun!

Why should you sponsor?

Sponsoring our competition is an excellent opportunity for companies and organizations to demonstrate their commitment to the future of computer science and support the development of the next generation of technical leaders.

By partnering with us, sponsors will have the chance to connect with a talented and motivated student population, and build brand awareness among the technology-focused community. The competition provides a platform for sponsors to showcase their products, services, and values, and to connect with potential employees and customers.

Additionally, sponsors will have the opportunity to demonstrate their support for education and diversity in the technology field, which can have a positive impact on their reputation and community relations. By sponsoring our competition, sponsors can invest in the future and make a lasting impact in the field of computer science.

Get Started!

RoboRally will accept sponsorships of all sizes. Please refer to the table below for benefits with cash sponsorship.

	Bronze (\$100+)	Silver (\$250+)	Gold (\$500+)
